Highly Accurate & Responsive

Features photoelectric technology; the smoke detector responds to hazardous smoke quicker than traditional detectors. With an 85 dB alarm and a rapid flashing indicator, the alarm ensures complete protection by giving you enough time to control the fire or safely escape.

Self-Test & Silent Function

Equipped with a low-battery warning, which easily informs you when it's time to replace the battery. Comes with silent mode that allows you to avoid false alarms from cooking or steamy showers. Once pushed, silent mode is activated for only 8 minutes, then returns to normal functionality, thus keeping you and your family safe.

Guaranteed Quality

This smoke detector complies with the EN 14604 standard, ensuring high quality and durability for home safety.

Protects Your Family

Place the smoke detector in anywhere you want to enhance the safety of your family; watches over you around the clock.
